Work Experience

Freelance: MRM Furniture
• Designed and developed a responsive B2B landing page for a furniture manufacturer using HTML, Tailwind CSS, and vanilla JavaScript for optimal speed and simplicity.
• Delivered the project within 3 days, adhering strictly to both time and budget constraints with zero overruns.
• Focused on clear UX and business conversion, tailored to a professional B2B audience and showcasing key products effectively.
• Built with lightweight, scalable frontend architecture, ensuring fast load times and cross-device compatibility without relying on frameworks.

Project Lead: Ally – Accessibility enhancement tool
• Led the development team behind Ally, driving architecture decisions, feature planning, and release cycles.
• Built *ally* as a privacy-first accessibility enhancer, ensuring all processing happens locally with zero data collection.
• Engineered DOM-level optimizations that improve web accessibility by at least 50%, measured through contrast, readability, and navigation metrics.
• Designed the system to be fully compatible with any website, with optional hardware-assisted support for users requiring enhanced interaction modes.

Skills

Frontend: HTML, CSS, JavaScript, Typescript, Tailwind CSS, ReactJS, NextJS, Zustand, Framer Motion.
Backend: Django, Spring Boot, NodeJS, Postman, SQLite.
Tools and Design: Git/GitHub, VS Code, Cursor, Figma, UI/UX design, Vercel, MongoDB Atlas, Render, Clerk auth.
Soft skills: Fast learner, Team management, Problem-solving, Critical thinking, Communication, Time management.

2025 - 2030

Education

• Computer Science and Engineering (Integrated MTech 5 year) – SSN College of Engineering
